Lurgan Township Residence,

The trash service is not free. That is why we had to put the padlock on the compactor. There have been too many coming in after-hours dumping their trash. We have kept our pricing at a minimum only to offset our cost of the hauling and dumping fees at the landfill. When people continue to bring in their trash and set it at the compactor without paying, the animals get into the garbage and have it scattered.

Please check your schedule for the days the recycling center is open and or closed.

If there are circumstances that you cannot come on the scheduled recycle day, please call the office to make other arrangements to bring trash over.

As always, there is no cost to bring in your recyclables.

Thank You for your cooperation,

Lurgan Township Board of Supervisors
