

PUBLIC NOTICE

Lurgan Township, Franklin County, PA is preparing an Official Sewage Facilities Plan Update as mandated by the Department of Environmental Protection. The purpose of this plan is to analyze current sewage facilities needs throughout the Township and to propose future solutions to address these needs.

Two areas were studied as potential future needs areas: the villages of Lurgan and Roxbury. As a result, the village of Roxbury is targeted as requiring facilities upgrades under a proposed five-year plan. Roxbury would be served by its own wastewater collection and conveyance system with treatment by either connection to the existing Letterkenny Township Municipal Authority system or via a series of three community land disposal and treatment modules. The Plan Update includes information for the proposed system with regard to estimated user costs, service rates, funding options and construction design. The Township would create an Authority to manage and administer the system. The village of Lurgan is proposed for re-evaluation as a needs area as part of a ten-year plan.

This Plan Update also proposes the continued administration and enforcement of the Township's 2015 On-Lot Sewage Disposal Ordinance wherein three separate on-lot management districts have been created. Residents are required to ensure the proper function of all on-lot sewage disposal systems once every three years via inspection, repair, replacement, pumping, hauling and disposal. Residents must utilize approved service providers and provide verification to the Township upon completion.

Copies of the Proposed Plan Update are available for review at the Township Municipal Building, 8650 McClays Mill Road, Newburg, PA 17240. Please contact Township Secretary, Jo Anna Miller (717-532-7460) for an appointment. A copy may also be reviewed at the offices of Martin and Martin, Township Engineer, 37 South Main Street, Chambersburg, PA 17201 between the hours of 9:00 a.m. and 5:00 p.m. Monday through Friday.
